School Principals

**From:** Mrs SM Semaswe  
**Superintendent-General**

**Subject: Measles vaccination in the North West schools**

North West Department of Education and Department of Health aim to decrease the outbreak of the measles through roll out of vaccination in schools.

The aim of this communique is to inform the schools of the Department of Health initiative and to prepare the school community on the measles vaccination program (see attached letter from Department of Health to request Superintendent General to conduct measles vaccination in north west schools).

### Request to schools:

- To familiarise Parents of schools as per the attached letter
- Request parent to indicate if a child has been vaccinated for measles in December 2022 or January 2023
- Provide or deny consent by ticking yes or no in item 2 on the attached letter for parents. Learners may not participate in the programme if the parents have not provided consent.
- Reports on number of learners already vaccinated (letter for parent attached) at health facilities.
- School Principals are to capture the number of learners vaccinated at health facilities and learners in need of vaccination.

The School Health Team (SHT) will make an appointment with principal to vaccinate identified learners.

Successful implementation of this programme is dependable on close collaboration of the:

- School Management Team,
- School Governing Body,
- District Based Support Team and
- School Health Team.

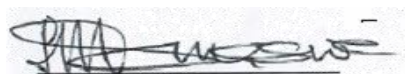

## Measles vaccination in schools 2023

If you have any enquiries, contact the Life Skills HIV and AIDS coordinators in your district, indicated on the following table:

District	Coordinators	Contact Details
Ngaka Modiri Molema	Mr Titus Ramadie	078 291 1503
