SUBJECT PREPARATORY EXAMINATION SUPPORT (NSC CANDIDATES)
(MATRIC SUPPORT PROGRAM)

The FET curriculum delivery and support services have collaborated to craft the timetable below for Grade 12 candidates to participate in virtual lessons in preparation for the **PREPARATORY EXAMINATIONS**. The curriculum support (e-learning) unit of education has organized virtual lessons for current NSC candidates.

The virtual lessons we are offering are specifically designed to address challenging subjects and topics that some candidates may find particularly demanding. By providing access to these remote lessons, we aim to ensure that candidates can receive additional support that they need.

Key details about the virtual lessons are as follows:

- **Online Platform:** To ensure easy access and participation, we will be using a secure and user-friendly online platform
- **Schedule:** Virtual lessons will be conducted to support candidates in grasping the topics so that they can improve their final examination performance and enhance their school-based assessments
- **Attendance:** We expect all eligible candidates to participate in these virtual lessons to maximize the benefits. Teachers and parents are encouraged to support and monitor candidates' participation
- **Support Team:** The Support Unit of Education has identified e-learning officials from each district and from the Head Office
